

## DairyMin® 5

**Donaghys DairyMin® 5 is a powdered mineral supplement containing 5 essential trace elements formulated for dairy cows to promote health and production in dairy cattle.**

- Donaghys DairyMin® 5 has been formulated to adequately supplement safe, balanced levels of the five main essential trace elements.
- Available in convenient pre-packaged sachets or in bulk bags.
- Trace element levels (per 2.5g daily dose):
 

Copper	200mg
Cobalt	6mg
Selenium	5mg
Iodine	10mg
Zinc	500mg
- Packaging size options:
  - 1kg individually packaged sachets (25 sachets per bag)
  - 25kg bulk bags

### DIRECTIONS FOR USE:

- Seek veterinary advice if using in addition to any other supplemental forms of Copper or Selenium.

### DOSE RATES:

<b>Cows: 1 month prior to calving</b>	2.5g / Head / Day.
<b>Cows: Calving to mating</b>	2.5g / Head / Day.
<b>Cows: Post mating through lactation</b>	1.25g / Head / Day *

\*Use blood/liver results or Veterinary advice to confirm use of half rate.

Donaghys recommend regular testing of blood and liver samples in conjunction with veterinary advice to confirm optimum mineral levels are supplied. (Many factors can cause differences in required mineral levels). In areas with specific mineral shortages, additional supplementation may be required.
