

Donaghys DairyMin® 3

Donaghys DairyMin® 3 is a liquid mineral supplement containing 3 essential trace elements.

- Formulated to provide a balanced blend of the three most common limited trace elements for dairy cows, (Copper, Cobalt & Selenium).
- Concentrated formulation means low volume daily dose (4ml) – low volumes to store and measure out.
- Donaghys DairyMin® 3 helps to ensure productivity, fertility and health are not compromised by commonplace deficiencies in Copper, Cobalt or Selenium.
- Liquid form allows easy measurement and application through an inline dispenser system or through a torpedo dispenser.
- Contents per 4mL dose:

Copper	200mg
Selenium	5mg
Cobalt	6mg

DIRECTIONS FOR USE:

- Donaghys DairyMin® 3 can be administered orally or through an inline dispenser.
- Seek veterinary advice if using in addition to any other supplemental forms of Copper or Selenium.

DOSE RATES:

Cows: 1 month prior to calving	4mL / Head / Day.
Cows: Calving to mating	4mL / Head / Day.
Cows: Post mating through to lactation	2mL / Head / Day *

*Use blood/liver results or Veterinary advice to confirm use of half rate.
