

## DairyMin® 4

**Donaghys DairyMin® 4 is a powdered mineral supplement containing 4 essential trace elements formulated for dairy cows to promote health and production.**

- Adequately supplements safe, balanced levels of four main essential trace elements, including a high 5mg rate of Selenium per 2.5g dose.
- Does not contain copper making it suitable for farmers supplementing with PKE.
- Available in convenient 25kg bulk bags.
- Trace element levels (per 2.5g daily dose):
 

Selenium	5mg
Cobalt	6mg
Iodine	10mg
Zinc	500mg
- Packaging:  
25kg bulk bags

### DIRECTIONS FOR USE:

- Seek veterinary advice if using in addition to any other supplemental forms of Selenium.

### DOSE RATES:

<b>Cows: 1 month prior to calving</b>	2.5g / Head / Day.
<b>Cows: Calving to mating</b>	2.5g / Head / Day.
<b>Cows: Post mating through lactation</b>	1.25g / Head / Day *

\*Use blood/liver results or Veterinary advice to confirm use of half rate.

Donaghys recommend regular testing of blood and liver samples in conjunction with veterinary advice to confirm optimum mineral levels are supplied. (Many factors can cause differences in required mineral levels). In areas with specific mineral shortages, additional supplementation may be required.
