

Donaghys DairyMin® 8

Donaghys DairyMin® 8 is a premium liquid mineral supplement in a probiotic extract base for dairy cows from pre-calving through mating and lactation. DairyMin® 8 ensures that adequate levels of trace elements are supplemented to enable cows to achieve higher levels of performance.

- Provides a balanced blend of essential trace elements – important to ensure optimum health, immunity, fertility and productivity can be achieved.
- Ready to use liquid formulation.
- Comes in 20, 100, 200 and 1,000 litre pack sizes.
- Contents per 15mL daily dose:

Copper	140mg	Zinc	440mg
Cobalt	6mg	Manganese	80mg
Selenium	5mg	Chromium	3.5mg
Iodine	10mg	Boron	3mg
- Also contains 150ml/L Donaghys probiotic extract base to provide amino acids and organic carrier compounds which can assist mineral absorption.

DIRECTIONS FOR USE:

- Donaghys DairyMin® 8 is designed specifically for dairy cows.
- 15ml per cow per day should be administered from approximately a month prior to calving through lactation.
- The 7.5ml dose rate is suitable for animals 500kg and over and should be reduced by 2ml per 100kg for smaller animals.
- Can be administered orally, through an inline dispenser or through a water system using a Donaghys torpedo dispenser.
- Seek veterinary advice if using in addition to any other supplemental forms of Copper or Selenium.
