DONAGHYS EMOLAN

Specifically designed teat conditioner for the prevention of teat cracking and chapping

Wear protective gear including gloves, protective clothing, and eye protection. This material may be harmful if swallowed. Avoid direct contact on skin or eyes. Rinse with cold water for first aid.

For animal treatment only.

DIRECTIONS FOR USE

Emolan is formulated to be used as an emollient additive in teat dip and spray solutions, which are used to assist in the control of mastitis in dairy cattle. Regular use of Emolan will promote soft supple skin. Emolan is suitable for use in Uddersan and Uddermate. Emolan can be used to replace up to 20% of the water in teat sanitiser solutions. It is especially recommended in dry or muddy conditions.

Dilute the teat sanitiser according to the manufacturers recommendation and add the appropriate amount of Emolan (see rates below). After Milking, thoroughly spray each teat with the solution made of teat sanitizer and Emolan.

By law the user must take due care, obtaining expert advice when necessary, to avoid unnecessary pain and distress when using the product other than as directed on the label.

For normal weather conditions:	200-500mls of Emolan per 5 litres of teat sanitiser
For changeable weather conditions:	500-700mls of Emolan per 5 litres of teat sanitiser
For very wet or dry conditions:	750-1000mls of Emolan per 5 litres of teat sanitiser

STORAGE

Keep in original container, tightly closed, away from foodstuffs. If required store in corrosive resistant container with a resistant inner liner. Keep out of direct sunlight. Store locked up in a cool place.

FIRST AID

If medical advice is needed, have product container or label at hand.

IF SWALLOWED

Do NOT induce vomiting. Rinse mouth and then drink plenty of water. If you feel unwell: Get medical advice/attention.

IF ON SKIN

Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention.

IF IN EYES

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice.

IF exposed or if you feel unwell: Call a POISON CENTRE or doctor/physician. National Poisons Centre 24 hours phone: 0800 POISON (0800 764 766)

DISPOSAL

Refer to Waste Management Authority. Dispose of material through a licensed waste contractor. Dispose of this material and its container to hazardous or special waste collection point. Avoid release to the environment. Absorb spillage to prevent material damage.
