# DONAGHYS Selenium 5

Dairy cattle and sheep mineral supplement

Selenium is a vital component of antioxidants that assist in livestock performance. Overcoming low Selenium levels can assist with:

- General good thrift
- Improved milk production
- Improved disease resistance
- Improved fertility

5mg/ml

DONAGHYS

PERFORMANCE FIRST

# **Donaghys Selenium 5**

Help your cows and sheep achieve a higher level of performance with Selenium 5, the dairy cow and sheep liquid mineral supplement!

#### **READ LABEL BEFORE USE**

Keep out of reach of children. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Avoid breathing mist/vapors/spray. In case of inadequate ventilation wear respiratory protection. Wear protective gloves/protective clothing/eye protection/face protection. Avoid release to the environment. Use only outdoors or in a well-ventilated area. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required.

#### **DIRECTIONS**

Only for use when there is a confirmed Selenium deficiency. Ready to use liquid no dilution required.

#### **DONAGHYS SELENIUM 5 DOSE RATE**

# DO NOT EXCEED THE STATED DOSE RATE AND FREQUENCY

1ml will provide 5mg of Selenium.

## Through water supply

Can be added to drinking water via dispenser. Administer daily to sheep and cattle at rates not exceeding the following:

0.02ml per 10kg of liveweight per day. 0.1ml per 50kg of liveweight per day. 0.2ml per 100kg liveweight per day.

1ml per 500kg of liveweight per day.

## Oral drenching

Administer orally to sheep and cattle at rates not exceeding the following:

0.2ml per 10kg of liveweight once every 3 weeks. 1ml per 50kg of liveweight once every 3 weeks. 2ml per 100kg of liveweight once every 3 weeks. 10ml per 500kg of liveweight once every 3 weeks. Do not administer more than once every 3 week period. Do not repeat drench more than 7 times a year.

#### Supplementary feed

Apply to supplementary feed daily at rates not exceeding the following:

0.02ml per 10kg of liveweight per day.

0.1ml per 50kg of liveweight per day.0.2ml per 100kg of liveweight per day.

1ml per 500kg of liveweight per day.

#### CAUTION

Do not use at the same time as any other selenised fertiliser, prill or product and do not exceed the stated dose or frequency without consulting a veterinarian. Do not repeat 3 weekly drenching more than 7 times per year. Cows pass on Selenium efficiently to the foetus. Pre-calving and post-calving are key times to supplement to ensure good level in both mother and calf but Selenium is beneficial year round.

#### **STORAGE**

Store locked up, in a cool place out of direct sunlight.

#### **FIRST AID**

**IF SWALLOWED:** Rinse mouth. Call a POISON CENTER or doctor/physician if you feel unwell. If medical advice is needed, have product container or label at hand.
