## DOSE RATE

1mL/kg at docking/tailing

Registered pursuant to the ACVM Act 1997 No. A009952

## FURTHER INFORMATION

### For prevention of flystrike at docking/tailing:

- Apply 5 - 10mL over the crutch, ensuring that sufficient StrikeOut Spray On is applied to cover the area to be protected (see diagram on the label).

### For the prevention of poll strike:

- Rams and sheep susceptible to poll strike should be treated.
- Apply at least 5mL StrikeOut Spray On to the areas requiring protection, around the poll and horns (see diagram on the label).
