

Donaghys Wetter Sticker

An organosilicone surfactant/penetrant specifically formulated to assist the penetration and uptake of Donaghys herbicide range. Uptake is more rapid and the rain-free period generally reduced.

Active Ingredient: 100% organosilicone surfactant.

- Donaghys Wetter Sticker is a penetrant / surfactant that increases the coverage and enhances penetration of Donaghys Grunt 600 and Donaghys GibbSTART MAX.
- Lowers the surface tension of spray solutions below that achieved by commonly used surfactants.
- The addition of Donaghys Wetter Sticker to Donaghys Grunt 600 at recommended rates will reduce the critical rain-free period from 2 hours to 30 minutes*. (*Critical rain-free period can vary for different weeds).
- Donaghys Wetter Sticker should not be added for control of Barberry, Boxthorn, Kikuyu or Ragwort with glyphosate products).

MIXING:

To minimize foaming, add the required amount of Donaghys Wetter Sticker to a nearly full tank of spray mix after other products have been added. Circulate or agitate before spraying.

NOTE:

Donaghys Wetter Sticker increases visibility of herbicide on targeted plants, which assists operators in achieving complete coverage. Despite greater visibility, the herbicide should still be applied at label recommended rates.

APPLICATION:

Wetter Sticker recommended use rates:

Grunt 600:	Boom/Aerial (per 100L)	Handgun (per 100L)	Knapsack (per 10L)
Ryegrass	100mL	100mL	30mL
Bracken/Broom	100mL	100mL	30mL
Gorse	-	100mL	30mL
Sweet Briar	100mL	100mL	30mL
GibbSTART MAX	Boom/Aerial (per 100L)	Handgun (per 100L)	Knapsack (per 10L)
Gorse	-	100mL	10mL
Broom	-	100mL	10mL
Tauhinu (NZ Cottonwood)	100mL	-	-
